NEW VISIONMOUNT®
PROJECTOR MOUNT

Sanus makes it easy to mount your projector

The new Sanus VisionMount® projector mount, the VP1, is the perfect addition to any home theater and works with nearly all DLP and LCD projectors currently available. The VP1 offers mounting versatility by including both 2.5" and 7" pipes. Using the release lever, a projector can be connected and disconnected from the VP1 mount without altering projector registration, and a locking system provides added theft security. Unlike other projector mounts, the VP1 includes everything needed to complete installation in one box, making installation as easy as possible.

Specialty

VP1-B1 shown

Included 2.5" and 7" pipes allow for a flush mount against ceiling or added extension if necessary

Integrated cable management through top of mount provides a clean look

Integrated key and lock system provides added security against theft

All pieces needed to mount projector included

MODEL VP1

Compatible with nearly all DLP and LCD projectors on the market

Post-installation micro adjustments make for effortless projector registration

Release lever allows for simple connect/disconnect of projector without affecting projector registration
